ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

London, 23rd.

Latest telegrams announce that Servia, Roumania and Greece are concentrating their standing forces in great haste, in view of the turn of events in Rumelia.

Constantinople, 23rd

The Sublime Porte has sent a circular note to all the Powers announcing its determination to assert its sovereignty over Roumelia by force of arms, if necessary, and explains the reasons that warrant this decision.

Paris, 24th.

It is stated that the British Government, through its Ambassador in Constantinople, has advised the Turkish Government to settle the conflict by pacific means and only to appeal to arms when all possibilities of a peaceful solution will have disappeared.

Palermo, 24th.

Ninety seven deaths of cholera yesterday.

PRESS TELEGRAMS.

Paris 21st—It is feared that the Roumelian revolution will bring about a general European conflict. Great anxiety prevails in diplomatic circles.

St. Petersburg 21st—In official circles it is believed that the powers who drew up and signed the Berlin Treaty will arrange the Roumelian difficulty in the most satisfactory manner.

It is probable that Austria will annex Bosnia and Herzegovina.

London 21st—Prince Alexander of Bulgaria has approved the nomination of M. Ostrauski to the temporary Governorship of Roumelia. The Bulgarian army is being mobilized and, added to the Roumelian forces, will be 50,000 strong. The Roumelian army are for the most part under the command of Russian officers.

Berlin 21st—Advices from Vienna lead to the belief that peace will be maintained, as it is stated that the Roumelian revolution was combined in St. Petersburg with the consentment of Austria.

Paris 22nd—French diplomatists think that the Roumelian revolution will directly bring about an alliance between France and England. According to trustworthy information France will display the greatest tact in the present difficulties and will abide by Lord Salisbury's attitude.

London 22nd—The Bulgarians have seized the Balkan Passes. Considerable numbers of Russians, believed to be volunteers, pass daily into Bulgaria.

Sophia 22nd—All Bulgarians, between 28 and 40 years of age, have been called to arms by special decree.

Belgrade 22nd—The Servian army is being mobilized. Troops have been sent to protect the South frontier, bordering on Macedonia and Albania. Fears of a rising in Macedonia and Albania are entertained.

London 22nd.—The Roumelian revolution has created the greatest rejoicing in Odessa. The combined forces of Roumelia and Bulgaria amount to 50,000 men. The Turks have not yet crossed the frontier. In the meantime, the greatest activity prevails in Roumelia and Bulgaria.

Paris 22nd—Rumors are afloat of the mobilization of the Austrian army.

At the Turkish Embassy it is believed the Powers and especialy Germany will respect the Berlin Treaty. It is also believed that the affair will be satisfactorily arranged and that Turkey will not be obliged to resort to arms.

Constantinople 23rd—The *Turkey* officially states that if the Roumelian revolution should require the intervention of the Ottoman Government, the Sultan will proceed to suppress the rising with firmness and moderation.

It is said that Turkey will endeavor to reestablish the *statu quo* in Roumelia.

Athens 23rd—In reply to a deputation the Prime Minister stated that if the Roumelian difficulties should offer any obstacle to the expansion of Greece, his government would intervene.

Manifestations have been made in favor of Greek intervention in Macedonia.

Constantinople 22nd—Anarchy prevails in Albania. An encounter between Turkish and Albanian troops has taken place near Prisrend.

Five battalions have been sent from Prisrend to reinforce the Turkish forces.

London 23rd—Several encounters have taken place between Turkish and Albanian forces, resulting in heavy losses for both sides.

Madrid 21st—The Spanish warship Aragon has returned from Babelthuap, the principal island of the Palaos archipelago, at which point it had previously established a strong garrison.

Madrid 22nd—Feelings of animosity against Germany have disappeared since Count Benomar's message has been made known.

The Ambassador hopes that Germany will accept as basis of a narrangement with reference to the Carolinas question, the offer of a naval and coaling station, liberty and right of trade and navigation, in the islands of the Archipelago.

Berlin 23rd—The *North German Gazette* ridicules the report that Germany would occupy Cuba. It admits, nevertheless, that in the event of war, it would be necessary to seize the island, but the idea of its permanent occupation by Germany is most ridiculous.

Madrid 21st—On Saturday 997 fresh and 337 fatal cases of cholera occurred in Spain.

Madrid 22nd—Yesterday 759 fresh and 370 fatal cases of cholera occurred in Spain.

Rome 21st—In Palermo 257 fresh and 114 fatal cases of cholera have occurred. King Humbert expresses his intention of visiting Palermo.

Advices from Palermo allude to the wretched sanitary state of that city. Already 30,000 of the inhabitants have fled, panic-stricken. The scourge is developing in the most alarming manner. The doctors are attacked by the mob on their visits to the sick.

King Humbert has sent a telegram to the people of Palermo expressing the deepest sympathy and forwarding 50,000 francs for the relief of the sick. His Majesty also places his favorite residence at the disposal of the sick.

Rome, 22nd.—Cholera is spreading with alarming rapidity in Sicily. Terror everywhere prevails, and each town has established a vigorous sanitary cordon. Encounters between the troops and the people daily occur, resulting in many being killed and wounded.

Rome, 23rd.—Within the last 24 hours, 214 fresh and 185 fatal cases have occurred in Palermo.

Troops have been sent to that city to reinforce the garrison. The city is quiet now, no disturbances having occurred yesterday.

Madrid 23rd.—King Alfonso is seriously ill, but his attendants will not reveal the real state of his Majesty's health.

Constantinople, 21st.—A very powerful influence is at work against the mission with which Sir H. D. Wolff has been entrusted by the British Government. The Sultan is adverse to the idea of sending a Turkish Commission to Egypt in combination with a British Commission, with a view of obtaining information and particulars respecting the state of the country.

Paris, 22nd.—Advices have been received from China creating great alarm and anxiety. It appears that the Celestial Government is concentrating troops on the Tonkin frontier.

Berlin 21st.—The Prussians are being expelled from Gallicia.

The greatest misery prevails on the Polish frontier.

London, 21st Advices have been received giving particulars of the death of Osman Digna. It appears that Osman died after his terrible defeat by the Kassala garrison and the friendly tribes.

Madrid, 21st.—Within the last 24 hours heavy rains have fallen in the South-West provinces of Spain, causing considerable damages. The rivers have flooded the plains and caused great losses in life and property.

Mexico 21st—Congress have decided that an American cannot enjoy immunity in the ordinary judicial proceedings on the plea of being a member in Congress, and that consequently Deputy Omana, who shot Hardie, must be accused of murder, and tried like any ordinary citizen.

The North-American community are very anxious about the reception of Consul General David Strother, as it is feared he will be removed to some other point. Although the Consul is a republican, he is much liked by the Republicans and democrats.

Salonica 22nd—The Archbishop's niece, and another lady have been captured by bandits, who demand a ransom of £3000.

Santiago de Chile 23rd—On the 20th the sea destroyed two moles at Iquique, one belonging to the State and the other to a commercial house. The Customs' mole has been considerably damaged. The sea is yet very agitated.

Chanaral 23rd—A terrible storm raged here on the 20th. The waves swept over the moles, leaving large fragments of rocks behind. Damages are considerable.

Parana, 24th—Jasto G Prado, who was entrusted with the task of organizing a Rochista Committee has been barbarously assaulted by the Jefe Politico and three soldiers. The greatest indignation prevails.

Santiago, 24th—Classes have been suspended in the National College for the last three days. It appears that the students have been meddling in politics, and that several of them will be expelled. It is rumoured that one of the professors will be dismissed.

Montevideo, 24th—Senator Laviña is recovering from his late attack of illness.

Advices have been received reporting the reception of the auctioneer Piria by President Caballero in Asuncion. The President congratulated Piria on his purchase in the Chaco. Piria will settle one hundred families on the lands he has bought.

Tota Nicosia leaves for Paraguay, where he will start a house of business.

A reception will be given to Dr Victorica.

The Captain of the Wandering Spirit has sent a letter to the President of the Republic thanking him for his kindness in allowing him the cargo of his vessel which had been saved at the time of the shipwreck.

FROM OUR BROTHER-EDITOR.

Rhyl, North Wales,
Aug. 22nd.

Listening to the ripple of the waves, or wandering about the rocky headlands between here and Llandudno, one has better occasions to moralise on the condition of things than amid the roar of London. The elections, which are to take place in November, engross the thoughts of all, but he would be more than a Solon or a Solomon who could predict the result. Unfortunately, the Conservatives are doing their best to bring in the Radicals with a sweeping majority, the Royal Commission on Trade Depression becoming each day more ridiculous: even Mr. W. Fowler publishes his resignation in to-day's *Times*, and the only two respeciable men remaining (out of 20). Messrs. Bonany Price and Palgrave, must look at one another in astonishment and say—"What have we done that we should find ourselves in such strange company?" In the meantime, Mr. Parnell is preaching Protection for such industries to delighted audiences. His idea of a Parliament in College-Green is to tax British manufactures, and Cobden laid the same charge against O'Connell, but perhaps without reason, for the Liberator always voted with the Free Traders. So far as England is concerned it would not matter much if Ireland imitated Canada or Victoria, by putting high duties on British products; but it would become a little monotonous to the Irish people before long if they had to pay double prices for policemens' clothing, and the like, merely for the pleasure of dressing the public servants in Irish broadcloth. Perhaps it is unwise for Mr. Parnell to raise the question so soon, but much excuse is allowable to a man in his position, for it is thought in England that the nomination of the Premier for the next Parliament will be in his hands. Instead of 80 members, it is now anticipated that he will have nearer to 100, as the *Times'* correspondent tells us that even Ulster is likely to be won by him, and he expects to secure a dozen seats between Scotland and England. This new power in the State will be omnipotent, if the balance of parties in Great Britain be at all even. Home Rule is only one of the many results that are now foregone conclusions.

There is a letter from an Englishman in to-day's *Times*, calling attention to the glaring injustice of having all the superior posts in Dublin filled by Englishmen or Scotchmen. I was not before aware of this, and I am sorry the *Times* did not before call attention to such an abuse of patronage. In our branch, however, we get a fair share, namely, in the Colonial Service. Lord Gormanstown (formerly Mr. Jenico Preston) has just been named Governor of Barbadoes.

You will see in yesterday's *Times* a manifesto by Mr. Clifford Lloyd, on the proper way to govern Ireland: it fills 4 volumes, and the editor also gives a leading article on the matter. He proposes to abolish the Viceroy, shut up Dublin Castle, and govern the country from Downing-street. This, at the very moment that a new Minister is created for Scotland, and that people in Dublin are trying to get a Royal residence near their city. The Dublin tradesmen love the Viceregal Court, and I fully second their wish to have a permanent Viceroy, either one of the Royal Family or an Irishman.

This week the British Archæological Society has been making its autumn tour in the south of England. The Duke of Norfolk, being its President, invited the members to visit Arundel Castle, where one of his agents received them and showed them the place, after which they succeeded in getting luncheon at the village. His Grace's idea of the claims of science and hospitality is peculiar.

Next week the British Association meets at Aberdeen, but the meeting will hardly have the brilliancy of last year's. We are, however, invited to visit Balmoral, but if Her Majesty be not there, many will spare themselves the journey.

The Scottish Geographical Society have very politely sent me a diploma of Honorary Member. I have so many friends Scotchmen that I always feel at home among them, but now, as a Scottish Geographer, I shall be able to commingle with Aberdeen folk like one of themselves. Of course, I am going to read a paper there, on the Fall of Price-level, but people are thinking so much about politics that they will not care much about anything else. Nevertheless, the reviewers have been rather kind in their remarks upon my paper in the *Contemporary*, and one (who does not agree with me) says—"Mr. M. must be allowed the knack of clear expression."

Dr. Stephen, the German Rowland Hill, has succeeded in establishing international telegrams all over Europe—one shilling for every six words, and sixpence for every additional six words. He has been powerless to break through the tremendous charges of the ocean cable companies.

We have had very agreeable weather for a fortnight, but too cold for bathing. In Sicily the heat is at present terrific, 110 Fahrenheit yesterday in Emile Ollivier has issued a manifesto as candidate for the post which M. Grevy is soon to vacate. He declares that he can save France yet, but I think few people will wish to give him the chance.

In Egypt they have begun to divide the proceeds of the new loan: one million sterling is already distributed among the bombarded sufferers of Alexandria.

The Emperor of Austria has sent for F. Bononi, and will probably give him funds to go back and ransom all the other members of the Mission at El Obeid.

M. G. M.

THE GONZALEZ PROPOSAL.

The discussion of the Lucas Gonzalez railway Bill threatens to occupy attention of Congress up to the end of the month, and much precious time is wasted in debates on details of no importance which might be settled between the Executive Power and the concessionaire. On Wednesday, the whole day was taken up in the discussion of the eighth clause of the first article of the Bill. This clause runs as follows:

8th—The Concessionaires shall be paid in 6 o/o Foreign Bonds, bearing 1 o/o sinking funds accumulative per annum, at 91 o/o of their nominal value.

Mr. Lainez, member for Buenos Ayres, requested the presence of the Minister of Finance. He then asked the Minister what quotation had been fixed in the event of these bonds being converted into a 5 o/o interest stock, bearing the same amortization. The Minister of Finance, it will be remembered, proposed this reduction of the interest of the stock in the previous sitting.

The Minister answered he was not positively aware of the quotation, as the last bonds placed on the foreign market had been launched at 77 and 78 o/o; meantime the quotation of Argentine 5 o/o bonds in the London Stock Exchange figured at 84 and 85. But H. E. opined, that since these railway bonds would be launched by a banking firm, appointed by both the Executive and the concessionaires, the most feasible plan would be to fix the price, previous to the launching, at the average price of quotations for the three months previous. The concessionaires, he thought, did not speculate on the hopes of profits from the placing of the stock; their profits would arise from the construction of the railway. The bonds would be handed to the contractors gradually in series, after each successive section of railway opened to the public. The fixing of an average quotation on each delivery of bonds would, therefore, be the best plan, as the construction of the railway might extend over a term of four or five years, when the 5 o/o bonds may be quoted at 90 o/o on the stock exchange.

H. E. thought it only reasonable to suppose that the credit of the republic would daily grow stronger in the European markets and no broad basis could be drawn to-day to fix the price of delivery of these bonds.

Mr Gilbert, the informing member of the Committee, then ordered the Secretary to read out the petition of Messrs Gonsalez & Co., who signified their acceptance of 5 o/o bonds, on condition that the price of delivery be proportional to the quotation fixed for the 6 o/o bonds.

Mr Calvo rose and opposed this, on the ground that the proportion would place the quotation of the 5 o/o bonds at 75⅞, say 9 points under the quotation of Argentine five per cents in London.

Mr. Davila said that the concessionaires would take over the 5 o/o bonds at 78 firm; he, nevertheless, would vote in favor of an issue of 6 o/o bonds, if the 5 o/o amendment were not carried.

Mr. E. Paz opposed the proposal and thought that the minimum price of delivery should be fixed at 80. He insisted on this quotation, because the stock would fall in London as soon as the new issue would put in an appearance. He reminded the House of the fall in Argentine stocks during Dr. Pellegrini's stay in London. The threatened issue of 28 million more bonds sufficed to upset the market for Argentine securities. No sooner had the National Commissioner left London, than our stocks began to rise again, and he felt quite sure that Argentine stocks would fall again if Dr. Pellegrini returned to London. He dwelt on what he termed the ruinous negotiation of the first series of the Thirty Million Loan, and, to show the financial incapacity of the Government, he affirmed that a bank of this city had offered to take a series firm at 79 o/o. This statement produced some sensation in the House.

Mr Paz advised the House to add a clause to the bill, stipulating that any surplus obtained over the 80 per cent quotation be divided between the Government and the concessionaires.

Mr Olmedo made a lengthy speech and showed the great danger of voting a bill that fixed no limits to the issue of these bonds. He called attention to the effect that such an unlimited power of issue, accorded to the Executive, would have in the London stock market.

After a desultory discussion of several members, the President of the House put the 8th clause to the vote, but Mr Civit moved an adjournment and the vote stood over for another sitting. By far the best thing, is to approve the clause as it stands. The 6 per cent issue at 91 per cent, suits the Government and the concessionaires, and the sooner the bill is passed the better. Meantime, much precious time is wasted in Congress; at the rate affairs drag the extraordinary sessions will have to be extended till the end of October.

IMMIGRATION BUDGET.

The following table completes the list in next year's Budget for Immigration. We conceive it desirable to publish this list, so that the public can see that the cause of Immigration is not so overlooked by the Government as is generally supposed; and trifling as is the expenditure, compared with other items of the Budget, it is always sufficient to keep the human wave that washes on our shores in motion until it breaks on the colonies in Santa Fé.

If we are asked by the stranger the best and happiest picture of the country to-day, we should point him out the hill side of Martin Garcia, where 2000 newly arrived emigrants are busy washing their clothes before landing in the city; or we might take him in spirit to the summit of the Argentine Andes and hold to him the vision of some half-dozen large steamers crossing the Atlantic with six thousand emigrants on board, all bound for the Plate.

In our last we gave the list of the expenditure in this city on the Central Offices of the Immigration Department. We now give the following table of the disbursements in the provinces and in Europe. It might be more, and it might be less; but the ceaseless tide that now flows on our shores obeys far higher currents and far more powerful agents than the mere driblets of our Immigration Budget.

THE BAY OF SAN BLAS.

The Argentine War Office has just published, in a neat pamphlet of over 100 pages, Col. Rivadavia's report on this natural harbor of our southern coast, and accompanying the book is a map of the Bay with the soundings, canal, buoys, anchorage etc, which shows at a glance the splendid natural advantages of San Blas, as a commercial or naval port. So far back as 1830 the harbor of San Blas was surveyed by Capt. Fitzroy, in the Beagle, who pronounced it the best harbor on the whole Argentine coast, of easy entrance, land locked, and sheltered from storm. One hundred years before Fitzroy, the Jesuit Fathers had their monastery on the Peninsula Javali, that commands the bay and harbor, and it was the Fathers who gave to it the name of San Blas. The Indians, however, entered, killed the Fathers, and levelled the monastery, and until the war broke out with Brazil, in the present century, when two Brazilian war vessels entered San Blas Bay and landed over 500 men, who marched on Patagones, San Blas was forgotten and unnoticed.

In the time of Rosas surveys were made, and the Government kept cattle and horses "invernada" at San Blas, but the maritime power of the Republic was so small, that San Blas was regarded more for its great advantages as an estancia almost entirely surrounded with water than as an unrivalled port with over 100 feet of water and the safest anchorage for vessels.

The present publication, however, shows that the National Government fully appreciates the value of this harbor. Colonel Rivadavia has completely eclipsed Fitzroy in the number and extent of his soundings, and has made a chart which will compare favorably with any of the charts of the British admiralty. The canals are clearly marked out, as also the buoys, which Colonel Rivadavia, in command of the Argentine gunboat Constitucion, placed with his own hands. It will be seen that vessels of the largest tonnage can enter San Blas with the greatest facility, and even the Almirante Brown can enter San Blas at low tide, such is the depth of water in the Bay, channel and harbor.

Col. Rivadavia contradicts the statement in the *South American Pilot* as to the injurious effect of the waters of the Bay of San Blas on the chains and anchors, and says that he remained with his vessel two years at anchor in the Bay, and that there was not the slightest indication of any deterioration on the chains, etc. He considers that this rumour was spread in the last century by ship captains who carried on extensive Lobos fisheries in the Bay, in order to frighten away others from a place which they desired to keep for themselves; and he adds that he considers San Blas the safest and securest port, and destined at no very remote future to be the largest and most crowded of all our ports on the coast.

We shall not follow Col. Rivadavia in all that he says in favor of San Blas and its great future, but merely observe that the pamphlet and chart before us prove the great strides the Argentine Navy has made in the last few years; and we congratulate Col. Rivadavia on the successful conclusion of the work entrusted to him by the Government, and so ably sustaining the name and prestige of his great ancestor

PARIS LETTER.

(*From our own Correspondent.*)

Paris, August 8th.

To assuage the misery of the working classes, by those classes, is the backbone of all socialism, and its solution would put the discovery of the philosopher's stone in the shade. All legislation can do is to place no obstacles in the way to the desideratum, M. Godin, of Guise, without any cackling, has been doing good work, and merits one of the highest seats in the Synagogue for his efforts. He invites the incredulous to come and see what he has done, and about which there is so much conversation at present. Being an actuality, let us go.

Guise is situated in the northern part of the Department of the Aisne, in ancient Picardy. It is contiguous to the Oise. The northern railway brings you to St. Quentin, 97 miles from Paris; a branch line of 16 miles, leads to Guise, and beside the station are the immense buildings, constructed by the Godin co-operative association, known as the 'Familistère'—families' residence or social palace. The population of Guise is 5,300, it is a kind of head centre of all the industries, 'in petto,' necessary to minister to the every day wants of man. It figures in history since 1030. It was taken by the English in 1339, when that intrepid warrior, Jane de Haincourt 'kept the bridge,' against them and her own father, their ally. It sustained several sanguinary sieges from Henry IV and the Spaniards; the latter in 1650, when the mayor and the town councillors were made nobles as recompense for their gallantry.

The most famous townsman of Guise was Camille Desmoulins, he, who in the dog-days of 1789 made a speech from a chair in the Palais Royal Gardens, and plucking a leaf from the elms put it in his button-hole, and inviting all who were brave to imitate him and march to demolish the Bastille. He was rewarded later by being guillotined. The most infamous native of Guise was Jean de Luxembourg who handed his prisoner, Joan of Arc over to the English, who carried out the sentence of the Sorbonne to burn her as a sorceress. Fire purifies all things, doubtless thought the political-theologians. Guise was the seat of the powerful family of that name, who, through Claude de Lorraine acted such questionable roles in the history of France. It was the same house gave the mother of Mary Queen of Scots. The origin of 'Guise' signifies 'intelligence' or a 'mould'; a derivation quite in season to-day, where 'metal castings,' so largely occupy the work-people; and the solution after a test of twenty-five years of the most important social problem of the age, is no small out-put of science and talent.

The palace and grounds form an immense square or park, surrounded by trees. Three rectangular buidings, each with a frontage of 627 yards, and three stories high, comprise the dwellings. The square formed by each building is glazed over, and it is by stair-cases, leading from this covered court-yard to galleries running round the outside of the stories, that access is obtained to the apartments, corridors are thus dispensed with. Rents are fixed on the basis of so much per square yard of space, varying from 10 to 26 centimes per month, so that a room per day does not cost more than 14 to 23 centimes. Water and gas are included; the keeping clean the court-yard, stairs, and galleries, are daily made by a special service.

In the three covered court-yards are a chemists' shop and the usual stores for supplying the necessaries of life-food and clothing. All provisions are purchased wholesale, in large quantities for cash and from first brands. In the way of lodging and food supplies, no hygienic advantage is overlooked. There are schools, casino, library and reading-room, theatre, and restaurant for those who desire to board out. The park extends to the river, across which a handsome bridge has been thrown to lead to baths of every description, and to the laundries. The park is intersected by allys, bowers, flower gardens etc. There is a space reserved for kitchen-gardens, where the land can also be rented by the square yard. The director's gardens are utilised to teach all the children florticulture, horticulture and arboriculture, by lessons and practice.

In the centre of the park is a model 'creche,' where mothers can leave their children during the day; there is close by the infant's school—both free. The boys and girls are educated together as in Switzerland and the U. States. Education is obligatory and compulsory up to fourteen years of age; the pupils are supplied with all school requisites free, and the teachers are certificated. In the theatre conferences, concerts, representations etc come off; the colony has its own band and fire-brigade.

On the high ground behind the gardens are the factories; the chief industry is the production of copper and tin smiths' wares, stoves, kitchen-ranges etc., employing 1,200 hands. These are they who, with their wives and families, constitute the colony. The pupils are regularly brought to the workshops, to receive the elements of industrial instruction.

M. Godin is the son of his work: his father was a village artizan in the Aisne; he has experienced all the hardships of the general condition of workmen, and became possessed of the idea that it was possible to effect an amelioration. He joined the Tourierists, but their creed was too ideal for the pressing wants of the struggle for life. Besides, he lost 100,000 frcs. in their speculation at Dallas, in Texas. M. Godin, by his discovery of making culinary articles with cast, instead of sheet iron, saved some money. In 1850, he set to work at Guise, and established a co-operative association, having a capital, to be limited to 4,600,000 frcs. To-day, the rateable value of the concern, is over one million francs.

Godin's theory is to have collective, side by side, with individual riches; to make the material arrangements of the home react on the habits, and on the moral and intellectual qualities of the occupants, and so empty the dramshops; to associate the workers in the profits of their labor, in the control of the association, and the management of all that conserns their united well-being; to accord the most perfect liberty to the members, and extend to others what they desired for themselves, that which constitutes true justice and christian morality.

There are three classes of individuals composing the society; associates, having a voice proportionate to double the value of their dividends; members, to the extent of one-and-a-half, and simple participators, a single voice following their earnings. All can qualify to be associates, by saving up to possess shares. Everything is decided by the suffrage vote, such as new appointments, promotion etc. Each year fêtes are held in Spring, to recompense and honor the best artizans in presence of the united colony; in autumn, to a similar end, for the school children. The women are voters, and fill situations as clerks, besides the ordinary avocations in the shops etc. Education, med cal aid, and medicaments, are free; orphans are reared. By a series of mutual associations no member can suffer from want; in the event of sickness, incapacity to work, or old age, there are pensions. The mind is never tormented by the prospect of a slack season, or the consequences of non-employment. The future of the workman and his family are assured. His life is surrounded, in point of material well-being, with all the advantages, science, experience, and economy can secure. His liberty is in no way compromised. His conduct is amenable to the verdict of the vote of his fellow-workers.

The director, council men, and similar officials are salaried. The profits of the association are made up from the factory productions and the sales of food etc. Out of the gross profits, are written off the interest to share-holders, the expenses of education and recreation, and the subventions to the several mutual associations. Out of the balance, or net profits, 25 per cent is carried to the reserved fund and the redemption of the scrip, so that in a short time, the members will be the sole proprietors; 50 per cent to the workmen, and the remainder to the salaried officers and special recompenses. In a word, all adherents are paid 'pro rata' to their claims and services. It only remains to add that where so much comfort exists, and the future of life is so well guaranteed, law, order and morality are not only at home, but enthroned.

EDITOR'S TABLE.

This evening Dr. Pellegrini is expected up from Flores Island, and then at last we shall get done with all the interviews and loan literature that has so filled the papers.

The latest news out about the Boulevard is, that the Lord Mayor wants to rent the old Bolsa for the Policia, and, we hear, that as regards the Tribunales in the Cabildo they will not be disturbed.

Our friends in the far South will take note that the Pomona has postponed her sailing to the 1st., and the Mercurio has reduced the fares, giving return tickets for Patagones and back for 50 nats. Formerly the trip cost 80 nats. which was altogether too high.

Last evening the Doctors pronounced Colonel Fotheringham out of danger and doing well. It was whispered at the policia that another military duel is on the cards, but we believe the authories have taken steps to stop it.

The plans and studies of Mr. Pealer's railway from Concepcion de Uruguay to Concordia are now complete and finished, and will be presented to Government to-day.

Advices from Tucuman and the other sugar districts are most favourable; the total sugar crop for the year is put down at 2 millions of arrobas; and Argentine sugar is now coming into such great favor with the families in this city that it sells just as fast as it arrives from the Interior.

The preparations going on for the Rocha demonstration on Sunday are on a scale which leaves no doubt that the affair will be the grandest ever witnessed in this city. It is generally said in political circles that the three Candidates Rocha, Irigoyen, and Gorostiaga have joined to make common cause against Juarez Celman.

Hurrah! Peace in Europe is secured. Greece has threatened to interfere if any Power budges. Not even Bismarck himself will disregard this threat. The general impression is that the Conference will take the liver wing of the Turkey this time. Poor Turkey ought to hate the bare mention of the word Conference. The telegrams yesterday were by no means so very peaceable.

A leading morning colleague declares that the country can only be saved from blue ruin by retrenchment; and that it has been brought to its present pass by the reckless flinging away of money on all kinds of works and schemes, without plan or 'presupuesto.' This is a self-evident and very painful fact; yet there are lots of wild-cat projects still fluttering about, as if the whole Bank of England were at the disposal of the Government.

Some people and patriots are nervous lest there be a row on Sunday, as the Celmanistas are, we believe, to have a demonstration as well as the Rocha party. The best way to avoid being damaged in a row is to stay at home and read the latest European papers, or for the Lord Mayor to order the veredas to be lowered in the street through which the procession is to pass.

A philosopher says that nothing seems to please a fly so much as to be mistaken for something to eat, and if it can be baked in a cake and palmed off on the unwary as a currant, it dies happy.

Peru has leased the harbor of Callao to a French company for $250,000 a year, and it is predicted that commerce will be driven away by high port charges.

Poor Spain. It is really terrible to read of her never-ending misfortunes. The cable announces another fremendous inundation.

They are not done with the late lamented Victor Hugo yet in the provinces. The Gauls in Cordoba have just sent a beautiful album to the defunct poet's son-in-law, Monsieur Lockhart.

We see a lot of fresh promotions proposed in the navy. This is the way economy is understood. What's the use of cutting down the War estimates (little though it be!) with one hand and increasing them with the other?

President Roca had the first telephonic chat ever held with Rosario on Wednesday, from the G.P.O. The experiment was most successful. We intend to shout up to W.P. the moment the line is opened to the public.

The wooden pavement sheme missed fire again in the Town Council on Wednesday night. No quorum. Alderman Frias has resigned.

The papers were frightfully dull yesterday. Nothing nice, novel or newsy in any part of them; but all full of long "chorizos" about debates in Congress, the Pellegrini Loan, the Civil Inscription and other musty topics. To-morrow will be a new day.

Alderman Frias has resigned and cut the Corporation for good. It's a pity, as he was of the R. M. J. T. R. P. order.

There is something wrong in Rosario There *must* be. There are more children attending the public school; the teachers are more assiduous; and, wonder of wonderful wonders! they have been paid their salaries up to the end of July. Still more astounding is the news that the teachers are, henceforward, to get five nats. per month more pay! An earthquake is due after this. If our subscribers were to volunteer to pay us 50 cents a month more for the STANDARD, we could not be more surprised.

The suppression of the Capital Lottery with the rest of the lotteries has deeply affected the Lord Mayor. His Lordship has written to Congress, or the Concejo, or the Cabinet, or somebody, demanding that the hole in the city cashbox be plugged by increasing the city's claim on the Contribucion Directa to 40 per cent; by making house-owners pay the *whole* cost of paving the streets instead of part as now (Won't they squeal at this?) and by sundry other means. City property is rising so fast in value that it is almost an act of charity to lay on the taxes for the owners. The worst of it is that they in turn, lay on to the poor tenants.

The "joven conocido" who was locked up for kicking up a row at the National Theatre on Sunday night last was let out yesterday on stumping up a fine of eight nats. No fewer than 36 declarations from as many witnesses had to be taken to settle the affair. The scape-goat in the case is a 'meritorio' policeman. What species of 'blue' is a 'meritorious?'

In San Vicente (Mendoza) one moonlight night last week, the police discovered several men armed with heavy sticks, and at once arrested them. It turned out that they had in contemplation nothing more serious than to give the members of the Municipality a good drubbing. It was a pity that the police interfered, as no doubt, the Municipality in question well deserved a hiding. At least so we should say, judging from the general run of Municipalities all over the globe.

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

Prospectuses with full particulars on application.

EDITOR'S TABLE

(Continued from 1st page)

The General Meeting of the English Literary Society was held on Wednesday evening. We hold our Report for want of space to-day; meantime we may say the Committee were congratulated warmly on the great progress the Society has made during the year. Authority was given to transfer $1000 o/legal to the 'Building Fund' and powers were also given the Committee to select a suitable site. The following gentlemen were elected members of the Committee of Management:—Messrs Martin L Munro Duncan, M Munro, J A Bennet, Benny Dreyfus, H Herbert Crabtree. Messrs M L Munro and Benny Dreyfus stood for re-election, the other members are new to the Committee.

The Chief of Police in Rosario is also a member of the Education Board We really do not know what to say to this; but the local papers say a lot about it. Local papers are awfully talkative.

There is wild commotion in Plaza Libertad, two whole 'manzanas' facing on which have been 'denounced' as Fiscal property. Billions are at stake in the case. This Paul Pry business of ferretting out flaws in people's titles to their property is a most obnoxious one, and is very much on the increase. Soon no man will feel safe as to the ownership of his house.

The new Mining Code was sent to Congress yesterday by the Minister of Justice, Dr Wilde. The Code is long, but the Minister's Bill that accompanies it is as short and sweet as could be desired: Only half a dozen Articles. Would that all Bills (including tailors' and modistas') were equally brief!

Commodore Ferguson, the highly and deservedly popular agent of Messrs Lamport & Holt in Rosario, is now in Santa Fé, with the object of having the river sounded there, as the enterprising firm in question are about to establish a direct line of steamers between Liverpool and Santa Fé and Parana. Bravo! Bravisimo!

A blue stocking is the scourge of her husband, children, friends, servants—of all the world. From the lofty elevation of her genius she despises all her duties as woman, and always begins by making herself man.—Rousseau.

The Misericordia Ball will be as bad as the Bolsa hop in the way of a crush. Over 3,500 invitations have been issued! We'll go without a topcoat, and in a 13-year old hat. It's the only way to enjoy the affair with an easy mind.

The plan for raising the wind for statues to Rivadavia and Moreno is to start a grand National Subscription, headed by the Government with 20,000 pats. Not a bad idea.

An Iberian named Caballero, residing in an unfashionable quarter of Rosario, took a tumbler of ammoniac punch the other night, because he had not 200 Nats, to enable him to return to Spain. Owing to uncalled-for interference on the part of a doctor who was passing by, his intention of being buried next day was frustrated.

A Clan of Unmistakable if not Historical Camp-belles.—The lady visitors at Wimbledon.—*Funny Folks.*

The Duse-Checki-Rossi troupe begin business to-morrow night at the Politeama in Teodora, Madame Checci is the Italian Sarah Bernhardt, and quite equal to the French woman. Our friend Ciacchi will, no doubt, reap another golden harvest by the engagement of this actress.

The *Prensa* recommends the overcrowding of tramcars to the Zoophiles. We have done so over and over again. All the influence of the Society will be necessary to secure victory, as the companies will have to double their rolling stock, and greedy shareholders will howl.

Joe Rossini, a grand nephew of the immortal author of "The Barber of Seville," was "run in" in Rosario the other night for being drunk and disorderly. The fellow had the supreme "cinismo" to whistle "una voce poco fa" while being "hauled."

The quarantine farce again! The Health Board has closed the port on the Hylston Castle from Barcelona, because there is cholera there, yet two gentlemen of Verona—beg pardon, of Barcelona, have arrived by the Gironde.

Mr. Irish, of Sunderland, has invented a telephone recorder or electrical reporter. A person speaking into the telephone automatically starts the mechanism, and this ends with causing a glass pen to decribe the sounds emitted upon a reel or a sheet of paper. At the receiving end a similar action takes place, and the person who is listening to the message can thus see it recorded at the same time.

People were much disappointed yesterday that there was not some rousing news from Roumelia. What are the odds that Russia will not make another dash at Afghanistan, and Germany at some unexpected island while Europe is trembling about that wretched little patch of a State that has rekindled the Eastern question? The *Correo Espanol* says that the English, French, Dutch and Spanish authorities in the South Seas have discovered a vast German plot to seize the whole of Polynesia and the Phillipines. This colonial policy of the burly 'Tourist' will trip him and his country up yet.

Brother Walls, of the *Courrier*, has got some extraordinary financial theories. His project, published yesterday, for bringing paper money to par in two months beats anything we have yet seen, except the financial performances of his distinguished countryman, Monsieur de Lesseps, in connection with the Panama Canal. If Walls brings paper to par in two months, the only adequate reward for him will be to reform the Constitution and make him President of the Republic.

"Your husband is now grey with years, Mrs G.," said an LL.D. to an old Scotch matron that he was visiting. "Ye're mista'en there," said Mrs G., who took a peculiar pleasure in setting the learned aright, "it's no years that have made him grey. He's been Gray since I kenn'd him."

Santa Fe wheat farmers won't be able to build many castles in the air with the news from the United States as a foundation. There is an increase in the cereal harvest of eleven per cent.

We're sorry to hear that H. M. S. Swiftsure has punched a hole in her hull on the West Coast, by the well and unfavourably known process of running on a rock.

Remataremos a la mas alta postura y dinero de contado, por orden de su propietario.

La magnifica casa-quinta arriba indicada cuyo terreno se compone de 51 vs. de frente a la Calle Flores por 136 vs de fondo y frente a la calle Colon, donde forma esquina con otra calle toda rodeada de reja de fierro con pilares redondos de material.

El edificio construido en cal y azoteas con maderas duras, se compone de:

1° cuerpo con sala, ante-sala, comedor y cuatro grandes piezas con cielo-rasos de yeso, pisos de baldosas, puertas y ventanas de cedro, todo recientemente pintado y empapelado.

Un corredor cubierto con vidrios de colores y otro gran corredor que da frente a la quinta.

2° cuerpo, para servicio, 3 grandes piezas azoteas de maderas duras, puertas de cedro, 2 cocheras y una caballeriza para 4 caballos, algibe, pozo con su bomba y pileta, cocina, letrina, cuarto de baño, etc., patio piso de baldosa y piedra.

Una gran quinta con arboles de escogidas frutas, jardin con peluza, arbustos y plantas de adorno, 3 grandes parrales zarzo de fierro, dos de ellos de 70 a 80 vs de largo y otro mas chico.

Vereda con grandes paraisos al frente y el fondo de la propiedad cercado de pared. En fin, es una hermosisima propiedad, que como se ve no deja nada que desear, situada en uno de los parajes mas altos y poblados de Flores y a solo dos cuadras al Sud de la calle Real, cuyo tramway corre hasta las 12 de la noche hasta la ciudad ida y vuelta.

La propiedad esta en perfecto estado, lista para habitarse y no hay sino llevar los muebles

La base de $14,000 m/n que servira para la venta aunque sea con una sola postura, no paga el valor del edificio, quedando el terreno de balde.

Titulos garantidos.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera's Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

BORWICK'S BAKING POWDER

Used in thousands of households under the Royal Patronage. Sold in 1d & 2d. Packets and 6d. & 1s. boxes, by all Storekeepers and Grocers throughout the World.

Invaluable at the Diggings and in the Bush also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and Borwick's Baking Powder. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been in the trade,' and nothing I can say will convince them to the contrary."

Gold	38.90 o/o prem.
Cedulas E	81½
Cedulas G	87½
Nat. Bank Shares	149

The unfavorable tenor of advices from Europe put fresh firmness into the gold market this morning. The leading bull bought today and the tendency of the market was very firm toward the close of official hours.

About fifty thousand gold dollars changed hands for cash; the market opened at 38.80, rose to 39, fell to 38.70, and closed at 38.90 per cent premium. An equal amount was sold at more or less the same rates for Saturday. Operations for the end of the month embraced 315,000 dollars; rates opened at 38½ and closed at 38.80. Over 100,000 dollars were sold for the end of October; operations began at 37, rose rapidly to 38, and closed firm at 37.80. Sixty thousand were sold for the end of the year at 36.60 and 36.50, and 20,000 for the end of next January at 36½. About 700,000 dollars were sold during official hours. The market opened firm, ruled hard all morning, and closed with a rising tendency.

The Cedula market wore a dead-and-alive aspect. A few thousand Series E were sold for the 25th at 81½. Operations in Series G embraced 67,000 for cash at 87½-½-⅝, and 30,000 for the end of October at 86⅝. Two hundred shares of the National Bank were sold, on call up to the end of next month, at 149.

Exchange rules singularly dull and rates are quite nominal. The Provincial Bank continues drawing at yesterday's rates The money market shews the usual symptoms of ease in paper and of tightness in gold.

The Lord Mayor has applied to the old Bolsa Company to rent their building in the Calle San Martin for the Central Police Court. The manager of the Company informed his Lordship that the old Bolsa could not be rented and that it will be sold at auction soon and knocked down to the highest bidder. The old building is expected to fetch one hundred thousand nats.

Mr. Salvador Gomez, the well-known Director of the National Bank, has bought a large building side in Boulevard Callao for 80,000 $m/n. A colleague announces that 100,000 $ was offered for a property in the Calle Cangallo that was sold not long ago for 60,000$, but that the owner refused. House property is going to the skies. The owner of the building in front of the new Bolsa, asks for a monthly rent of no less than 40,000 m/c.

The late stringent regulations adopted, with regard to the admittance of non-members into the Bolsa, are bearing the very best results. About fifty new members have been enrolled and 37 to 40 are posted for admittance.

The Finance Committee of the Deputies met yesterday to discuss Mr Calvo's Bolsa Bill. Mr Legaretta, President of the Bolsa, attended the sitting. It was agreed that the sale and purchase of gold shall be considered a legal commercial act, and the article obliging brokers to sign certificates with the names of their principals was accepted. The bill goes before Congress to-day. This new system of giving the names of principals meets with the applause of the majority of the brokers at the ring.

The Commercial Chamber of the Bolsa met yesterday and held a lengthy sitting. The creation of a Cereal Committee was discussed, and supported by the majority of members The creation of this committee, which will meet a great want in the market, will be discussed at a general meeting of the shareholders of the Bolsa.

The Ville de San Nicolas has arrived from Rosario and San Nicolas with fair cargo of produce; she fills up in this port and will leave on the 30th for Bordeax and Havre. The French steamer J. B. Say will leave the Boca to-morrow with a full cargo of merchandise for Rosario.

Baron v. Pollnitz was welcomed on 'Change to-day and enveloped in friends. He has been three months absent, and he returns with important proposals to colonize lands down South.

The master of the British vessel Wandering Sprite has sent a letter to President Santos thanking him for the assistance of an Oriental gunboat at the time of the wreck, and for his personal interference and order that all the cargo should be handed over free of salvage charges.

Arrangements are being made for the purchase of a first-class collection of maps and plans of lands in Provincial and National territory to hang up in the Bolsa. Their want is greatly felt, and much of the dullness in land circles is ascribed to the absence of maps in the hall.

Bradstreet's has the following on the South American Commission under date New York 15th ult:—

"Press dispatches from Washington state that the commission appointed to visit Central and South America in the interests of commerce between those countries and the United States has made reports on its visit to Ecuador, Venezuela and Guatemala. No reports on the visit to Brazil and the Argentine Republic have been submitted, and it is understood that none will be made. With reference to reciprocity treaties, it was learned that Ecuador had nothing to offer, as the government needed all the duties it could get to pay expenses. Besides as the United States is fifth in the list of consignees of their exported goods, the President of Ecuador did not see the point. Guatemala was found in a more amiable mood, and it is stated that this republic has already taken some steps toward a treaty of reciprocity. Venezuela was in a non-committal attitude generally, as its agent was already taking a trip through Europe to negotiate treaties. As to the coinage of a common dollar, the President of Ecuador said that the country had been unable to develop its silver mines, and as its products were not marketed in the states forming the agreement for a common coin, it might prove troublesome in receiving pay for products shipped to Europe. On this point, too, Guatemala appeared more approachable, and expressed a willingness to enter into an agreement. Emphasis is given in the report to the enormous freight charges between Ecuador and the United States. The transportation of the commerce of the coast between Panama and Callao is almost wholly in the hands of one company, and it has made its tariff so high as to crush out many branches of trade, and has reduced the remainder to the smallest dimensions.

The following is a summary of operations effected this morning at the ring during official hours:—

For cash 3,000 at 70

It was reported that fair amounts of exchange had been passed this afternoon at 46⅝. Little or nothing was reported in francs; the dead-lock in affairs since Monday is unusual.

The gold market ruled pretty active during afterhours. The market opened with a firm feeling after the closing of the ring, but a weak feeling crept into the situation at four o'clock. Towards five o'clock there was a slight reaction, as new buyers entered the field and bought freely. The following business was reported:

70,000$ for Saturday at 38,90 to 38.50
270,000$ for 30th at 38.80 to 38.40
200,000$ for Oct. at 38 to 37.50
40,000$ for Dec. at 37
20,000 Cedulas G at 87½

The gold market closed firm at 38½, buyers for the end of the month, and 37.70, buyers for October.

Shipbrokers look very glum. Freights are awfully dull, and rates are quite nominal and very low. Very little produce is going forward and there are no prospects of activity before the end of next month.

A few thousand National five per cent. bonds changed hands to-day at 70.

There was a rumor on 'Change this afternoon that telegrams had arrived from Europe announcing a rise in tallow.

The petition of the contractor of the City Improvement Works has been decided by the Government. Payments shall be effected 45 per cent in gold and 55 o/o in paper. The same proportion is established for the payment of Mr. Bateman's interest in the works.

The fine steamer Mercurio will leave tomorrow for Bahia Blanca and Patagones, from the Boca. The Platense steamer Pomona will leave on the 1st prox., as usual. It is rumored that one of these steamers will return with the 3rd Regiment of the Line, at present stationed in Patagones; this is Lieut. Col. Belisle's regiment.

Mr. H. Lezica, the well known real-estate broker, has sold five small properties belonging to Mrs Lemvine, for 45,000 $m/n. These properties form a corner at Alsina and Solis streets.

It is stated that efforts are being made to establish a company with German capital for the import of fresh meat from the Argentine Confederation. The capital proposed is three million marks, of which only a small portion would at first be called up, as it is intended first to make experiments. A meeting is to be held at Hamburg to consider the project, at the head of which is Herr Pedro Beck, of Buenos Ayres, while a Hamburg banking firm is also interested. At Stettin there is a movement on foot for the establishment of a large slaughter-house for the purpose of developing a trade with England in fresh meat.

Messrs. J. L. Bowes & Brother, under date Liverpool August 20th, 1885, give the following:—

The wool trade of late has been dull in every branch, and much caution prevails. At Bradford to-day, however, the market has shown a better tone, and prices of English wool are a little stronger. Merino wools are very flat, and it is thought that a further fall in prices may occur at the auctions of Australian wool, to commence in London on 1st prox.

The recent transactions in this market have been small, and comprise only some superior washed Peruvian at 9d per lb, unwashed Lima of good average quality at 6¾d per lb., and some poor style of unwashed Persian at 4½d per lb. About 600 bales East India, withdrawn from the recent auctions, have been sold at about recent rates. Alpaca is neglected; for a shipment of 330 bales Islay 13½d per lb. has been refused. Mohair remains dull, but 500 bags have been sold during the fortnight at 13½d to 15½d per lb for inferior to ordinary fleece, and 16d to 17d per lb for poor to good fair average.

The next auctions of East India wool will be held on 22nd September; the quantity of new wool already arrived is 7,831 bales, and the old stock consists of 5,000 bales, of which importers hold 2,000 bales; the quantity afloat is 9,384 bales.

Sheepskins have been neglected of late, and pulled wool and roans are also depressed; the transactions have been small, and on the basis of 5½d per lb for invoices of ⅞ to full-woolled matadero B. Ayres, but we now quote only 5½d per lb for this description. The present small stock will be offered at auction on 25th instant.

Census of sheep—

The official returns of the number of sheep and lambs in Great Britain on the 4th June last show that the increase in our flocks marked during the last two seasons, after a steady decline for several years, is still maintained, although only in a lesser degree. The returns apply only to Great Britain, and, in the figures given below, those of last year for Ireland are repeated, as the figures for that country are not available:—

	1885	1884	1885
England	15,654,851	16,492,925	26,584,635
Wales..	2,581,250	2,656,997	
Scotland	6,892,361	6,883,293	
Ireland..	3,219,098	3,243,572	3,243,572
	28,347,560	29,376,787	29,778,207

For the purpose of comparison we also give the figures for previous years. The largest number recorded in any year was in 1868, when our flocks reached 35,607,812, whilst now they are only 29,778,207. The figures for 1875 show the number of sheep and lambs when the fabrics made from English wool began to go out of favour, and those for 1879 indicate the decrease which followed upon four years of this neglect. The effect of the continued adversity of fashion, and more especially of the sheep rot, which prevailed during 1879 and 1880, is shown by the figures for 1880 and 1881:—

	Great Britain.	Ireland.	United Kingdom
1868 ..	30,785,368	4,822,444	35,607,812
1875 ..	29,237,921	4,254,027	33,491,948
1879 ..	28,220,055	4,017,903	32,237,958
1880 ..	26,677,157	3,562,463	30,239,520
81 ..	24,637,690	3,258,583	27,896,273
82 ..	24,376,737	3,071,463	27,448,200
83 ..	25,128,462	3,219,098	28,347,560
84 ..	26,133,215	3,243,572	29,376,787
85 ..	26,534,635	3,243,572	29,778,207

The average number of sheep and lambs in the United Kingdom during the ten years ending 1877, before the neglect of fashion began to be felt, was 33,293,525.

Double Bow No. 200	5½ & 7 " "
Special Nos. 26 & 27	5½ " "

The superiority of these Shears over those of any other make is fully borne out by the numerous testimonials in possession of the undersigned; such as the following:—

Sr Don F. G. Walker,
Estancia "Sauce Chico,"
Bahia Blanca, Febrero 23, de 1885

"En contestacion a la pregunta de Vds debo decir que cuando mande pedir Tijeras Chicas No 26 y 27 de Ward y Payne segun las mesuras que Vds me remitieron, Vds me contestaron que estas ya se les habian acicluido. Hubiera deseado tener mas de ellas pues tenian aqui mucha aceptacion. Las Tijeras que hemos empleado en este Establecimiento este año han sido los Nos 100 y 125 de Ward y Payne marca Bigornia."

A CHRONIC COUGH cannot be cured by means of a simple luprication of the irritated throat. To insure a permanent cure the medicine used must contain some soothing and healing ingredients, which may be readily absorbed by the effected parts—the lungs; with all their healing properties unimpaired.

Experience has proved that the Pectoral of Anacahuita, consisting of an extract obtained from a renowned medicinal tree of Mexico, is full of the very properties required, and is besides easily absorbed by the organs of respiration.
